- c. Any applicable policies or procedures to investigate and deal with the actions of the student may be used to support the decision of disciplinary action which may include (but is not limited to):
 - a verbal warning and counselling regarding the incident of inappropriate behaviour;
 - a written warning that clearly states that the behaviour is inappropriate and outlines/identifies possible consequences including disciplinary action up to and including a suspension of study;
 - requiring the student with a serious health condition which is putting the student and/or others at risk to take medical leave - see clause 3.d. and Appendix 1;
 - if the behaviour is unlawful (for example, fraud or theft), notification of the incident to the police; and
 - where the breach of the Student Code of Conduct is deemed serious based on a 'reasonable person' standard, immediate disciplinary action will be implemented. This may include a recommendation of suspension of study or cancellation of enrolment - see clauses 3.e and 3.f.
- d. Where the Head of School considers required medical leave to be necessary the process outlined in Appendix 1 will be followed.

- e. Where the Head of School considers suspension of study or cancellation of enrolment to be necessary, they will hold a meeting with the Registrar, the Director of Education, and the Facilitator to discuss this.
- f. If the outcome is confirmation of suspension of study or cancellation of enrolment, the Head of School will notify the student in writing to advise them of the decision, the reasons for the decision, their right of appeal, the process to appeal, and the support services available to the student.
- g. If the outcome is to not proceed with suspension or cancellation, and instead to initiate another discipline option, the Head of School will notify the student in writing to advise them of the decision, the reasons for the decision, their right of appeal, the process to appeal, the support services available to the student, and the possible consequences of repeating the behaviour.
- h. The Head of School will include in their reports to Academic Board, all incidents of inappropriate behaviour that result in disciplinary action.

APPENDIX 1: REQUIRED MEDICAL LEAVE PROCEDURE

PURPOSE

This procedure provides information on managing students whose inappropriate behaviour is due to a serious medical condition, and who are now required to take medical leave.

INTRODUCTION

A student's medical condition may become known because of inappropriate behaviour or because the student has disclosed it and an incident occurs. If the student's behaviour is putting the student and/or others at risk, and all options of support and counselling have not changed the behaviour, placing a student on medical leave may be the only option available. Where the student is unwilling or unable to request leave, it allows ABS to require the student to take a period of medical leave with the option of returning to study at a later date, with or without set conditions.

PROCESS

1. Crisis management

- a. If the behaviour is at crisis level, as defined in the Critical Incident Policy, that policy should be initiated immediately.

2. Investigation

- a. Investigation by the Head of School will include consultation with Student Support to discuss what support the student has already received and should receive as an outcome of this incident.
- b. Copies of all decisions and communication must be kept on the student's file.

3. Initiating Required Medical Leave

- a. The Head of School will meet with the Director of Education, the Registrar, and a representative of Student Support to consult and confirm that Required Medical Leave is required for the student and to discuss the support to be provided.
- b. Where Required Medical Leave is agreed by the group, the Head of School will write to the student notifying them of this decision and arranging for a meeting between the student, Head of School, Director of Education and a senior representative of Student Support. The student will be free to bring a support person to the meeting. The meeting will include:
 - discussion on the reasons for the leave;
 - that the leave is mandatory;
 - the process and conditions (for example a medical certificate confirming fitness to return) for requesting a return to study;
 - the support that will be provided; and

- how to appeal the Required Medical Leave decision if the student wishes to do so.
- c. To expediate notification to the student, the Student Support representative will contact the student by phone to notify them of the oncoming letter and its contents, to discuss their availability for attendance at the meeting and the information they will receive there, and that the requirement for leave is mandatory and will go ahead irrespective of the student's attendance at the meeting.
- d. A period of Required Medical Leave will normally be for no longer than twelve (12) months.

4. Support

- a. ABS will utilise relevant policies and procedures to support the student and, on a case-by-case basis, minimise the impact of Required Medical Leave. This includes in academic standing and progression, and fees.
- b. ABS will maintain contact with the student where that is possible to inform support planning for the student's return to study and to reassure the student of their continued connection with the organisation while they are on leave.

5. Return to Study

- a. The student requests a return to study by writing to the Head of School and providing evidence that any conditions previously notified for return to study have been met.
- b. The Head of School will discuss the request with the Director of Education, Registrar, and the Support Unit. Additional information may be sought as required.
- c. The decision can be to:
 - allow the return, with or without conditions;
 - to extend the leave, by no more than twelve (12) months; or
 - to refer the matter to the Audit and Risk Committee with a risk assessment, following which the committee's decision will be final.
- d. The decision, and any communication around it, will be recorded in the student's file.

6. Appeals

- a. Refer to clause 3.6 in the Managing Inappropriate Student Behaviour Procedure. Students may appeal on any decision, including extension of Required Medical Leave following completion of the first period of such leave.
